

# CIS 337 - NETWORK SYSTEMS MANAGEMENT (1)

Grand Valley State University - School of Computing - Fall 2023

Instructor	Contact Info	Office Location	Office Hours
Dimitrios Melissourgos	melissod@gvsu.edu 352 278 6777	MAK D-2-232 DCIH 530H	Tuesday 10am-noon Thursday 10am-noon Tuesday 2:30pm-3:30pm Thursday 2:30pm-3:30pm

## Course Description

### General Information

This course provides information systems students with the knowledge and skills necessary to manage the sophisticated Local Area Networks available today. It approaches the subjects of network design, installation, and management from the corporate view of networking.

Credits: 3

Grading scheme: Letter grade

Prerequisite: CIS 162 - Computer Science I

Lecture time: Tuesday and Thursday 9:00am-9:50am

Lecture location: MAK B1124

Lab time: Wednesday 8:00am-9:50am

Lab location: MAK A1167

## Course Objectives

At the end of the course, students will be able to:

- Explain how networks such as the Internet move messages from one computer to another using different hardware and software components.
- Design networks using a variety of network technologies and components in various network types such as LAN, MAN and WAN.
- Build and manage commonly used network hardware and software components such as servers and routers infrastructure.
- Apply various security measures and techniques in network applications and control.

## Required Course Material

Business Data Communications and Networking, by Jerry FitzGerald, Alan Dennis, Alexandra Durcikova.

## Exams

Exam	Date	Time	Location
Midterm	Wednesday, October 11	8:00am-9:50am	MAK A1167
Final	Tuesday, December 12	8:00am-9:50am	MAK B1124

## Course Schedule (Tentative)

Week	Topic
Week 1	Introduction to Data Communications (Chapter 1)
Week 2	Introduction to Data Communications (Chapter 1)
Week 3	Physical Layer (Chapter 3), Binary, Hex, IP, MAC
Week 4	Application Layer (Chapter 2)
Week 5	Data Link Layer (Chapter 4)
Week 6	Network and Transport Layers (Chapter 5)
Week 7	Network Design (Chapter 6)
Week 8	Wired and Wireless Local Area Networks (Chapter 7)
Week 9	Wired and Wireless Local Area Networks (Chapter 7)
Week 10	Backbone Networks (Chapter 8)
Week 11	Backbone Networks (Chapter 8)
Week 12	The Internet (Chapter 10)
Week 13	Network Security (Chapter 11)
Week 14	Network Management (Chapter 12)
Week 15	Network Management (Chapter 12)

## Grading Policy

### Grading Scale

A	≥93%
A-	≥90%
B+	≥87%
B	≥83%
B-	≥80%
C+	≥77%
C	≥73%

## **Grading Scale**

C-	≥70%
D+	≥67%
D	≥63%
F	<63%

<b>Assignment / Test</b>	<b>Percentage of Final Grade</b>
Attendance	10%
Quizzes	10%
Homework and Labs	20%
Project	10%
Midterm	25%
Final	25%

## **Attendance Policy**

Students are required to attend the class. Sign on sheets will be handed out in 11 randomly selected class meetings (lecture or lab). You will receive the full 10% attendance grade if you sign on for 10 out of the 11. Each additional missing class costs 1%. If you cannot attend a class meeting, you need to notify the instructor before the beginning of the class. If you have a serious reason for missing the class (e.g. illness, injury, family emergency, etc.), then you will be excused and you will not lose 1% of the attendance grade.

## **Quizzes**

There will be 10 short quizzes at the beginning of each lab meeting. Each one will account for 1% of your grade. The question(s) in the quizzes will be based on recent material discussed in class. These will be closed-book quizzes.

## **Homework and Labs**

The lab work aims to provide practical and hands-on experience in configuring and managing computer network systems. Lab time is used to get you started on your homework and lab assignments, but it will not be enough to complete your assignments.

There will be 10 homework and lab assignments over the duration of the semester. The due day is 2 weeks after the assignment has been given out, unless stated otherwise. Assignments turned in after the due date will receive a 25% late submission penalty per day, including weekends and holidays, with a max of 4 days.

Homework and lab assignments are open-book; you are allowed to use books, notes, slides, search the internet, and discuss with the instructor while completing the work. However, you are not allowed to discuss your assignments with other students or engage in practices that would be considered plagiarism, copying, or cheating. Each student is required to complete homework and lab assignments by themselves.

## **Project**

There is a semester-long project that students need to complete by Sunday, December 3<sup>rd</sup>. It can be done individually or in groups of 2 people. Some ideas for the project are: writing a program that is related to networking (you can use any programming language, but your program must use socket programming), reading a scientific paper and expanding on it, using a networking tool to investigate/setup/manage a network, etc. Although the subject of your project is not restricted to the above ideas, the project must be approved by the instructor before you start working on it.

## **Additional Information and Resources**

### **Important Dates**

Drop Deadline - Grade "W": November 10<sup>th</sup> by 5:00pm

Other important dates: [Fall 2023 Academic Calendar](#)

### **Classroom Protocol**

Treat faculty, staff, your fellow students, and university property with respect. Do not use your phone during class. Do not make distractions and be on time for the class meetings. Any regrading requests must be made within a week of the students receiving their grade.

### **Integrity and Honesty**

All students are expected to adhere to the [academic honesty standards set forth by Grand Valley State University](#). In addition, students in this course are expected to adhere to the [academic honesty guidelines as set forth by the School of Computing and Information Systems](#).

### **Course Evaluation**

The end-of-semester course evaluation sites are set up in LIFT and maintained by the Academic Department Coordinator. Course evaluation sites become available to students during the last two weeks of the semester (not exam week), unless specified otherwise.

### **Disabilities and Special Accommodations**

Grand Valley State University strives to provide an inclusive environment across campus that is accessible to all individuals with a diverse range of abilities. As your instructor, it is my objective to facilitate opportunities within all class activities and programs because your success is important to me. If you are encountering difficulties that are interrupting your learning experience, please feel free to make those known to me as soon as possible, as early planning is essential. If you feel that you need accommodations in this course, you must present a memo to me from Disability Support Resources (DSR), indicating the existence of a disability and the approved accommodations. If the class meets in person, you should schedule a meeting with me during office hours to discuss your accommodations. If your class is online or hybrid, please forward your memo to me in an email and schedule a virtual or phone appointment with me to discuss your accommodations. Accommodations are not retroactive. If you have not already done so, please contact the Disability Support Resources office (215 CON) by calling (616) 331-2490 or by email to [dsrgvsu@gvsu.edu](mailto:dsrgvsu@gvsu.edu). You can also visit the DSR website here [Disability Support Resources](#). Please note that I cannot provide accommodations based upon disability, until I have received a copy of the DSR issued memo. Furthermore, if you have a disability and think

you will need assistance evacuating this classroom and/or building in an emergency, please make me aware so that the university and I can develop a plan to assist you. All discussions will remain confidential.

### **GVSU Course Policies**

This course is subject to the [GVSU policies](#).

### **Discrimination or Sexual Misconduct**

Grand Valley State University is committed to creating and advancing a campus community where individuals feel empowered to raise concerns, ask for help, and be informed about options before making any decisions. If you become aware of any discrimination or sexual misconduct incident, please report it at the [Title IX office](#).

### **In Case of Emergency**

In Case of Fire: Immediately proceed to the nearest exit during a fire alarm. Do not use elevators.

More information is available on the [University's Emergency website](#).
