**Office Location**  
MAK D-2-232

**Office Hours**  
Monday 2pm-3pm  
Wednesday 2pm-3pm  
Friday 2pm-3pm

## Course Description

### General Information

An introduction to data communications techniques, particularly as applied to computer networks. Physical media and devices, data link and network protocols, and other data communications topics will be studied.

Credits: 3

Grading scheme: Letter grade

Prerequisite: CIS 241 - System-level Programming and Utilities

Lecture time: Monday, Wednesday, Friday at 1:00-1:50 pm

Lecture location: MAK A-1-167

### Course Objectives

After completing the course, students will be able to:

- Explain layered communication protocol architecture.
- Describe the operation of various routing protocols.
- Compare reliable and unreliable data transfer protocols.
- Develop distributed network applications using the Sockets interface.
- Apply various security measures in networks.

### Required Course Material

Computer Networking: A Top-Down Approach, 9th edition, by James Kurose and Keith Ross

### Exams

Exam	Date	Time	Location
Midterm 1	Friday, February 20	1:00am-1:50pm	MAK A-1-167
Midterm 2	Friday, March 20	1:00am-1:50pm	MAK A-1-167
Final Exam	Monday, April 27	12:00pm-1:50pm	Tentative

## Course Schedule (Tentative)

Week	Topic
Week 1	Introduction, Administrivia, Chapter 1
Week 2	Chapter 1, Lab 1 Intro, Chapter 2
Week 3	Chapter 2, Lab 2 HTTP
Week 4	Chapter 2, Lab 3 DNS
Week 5	Chapter 3
Week 6	Chapter 3, Lab 4 UDP
Week 7	Chapter 3, Lab 5 TCP
Week 8	Chapter 4, Lab 6 Subnets
Week 9	Spring break
Week 10	Chapter 5, Lab 7 IP
Week 11	Chapter 5, Lab 7 IP
Week 12	Chapter 6
Week 13	Chapter 6, Lab 8 NAT, ARP, DNS, and Routing
Week 14	Chapter 7, Lab 9 Network Design
Week 15	Chapter 8, Lab 10 TLS

## Grading Policy

### Grading Scale

A	≥93%
A-	≥90%
B+	≥87%
B	≥83%
B-	≥80%
C+	≥77%
C	≥73%
C-	≥70%
D+	≥67%
D	≥63%
F	<63%

Assignment / Test	Percentage of Final Grade
Attendance	10%
Quizzes	10%
Labs	30%
Project	15%
Midterm 1	10%
Midterm 2	10%
Final	15%

## **Attendance Policy**

Students are required to attend the class. Sign on sheets will be handed out at 11 randomly selected class meetings (lecture or lab). You will receive the full 10% attendance grade if you sign on for 10 out of the 11. Each additional missing class costs 1%. If you cannot attend a class meeting, you need to notify the instructor before the beginning of the class. If you have a serious reason for missing the class (e.g. illness, injury, family emergency, etc.), then you will be excused and you will not lose 1% of the attendance grade. If you notify the instructor of your absence after the class has begun, you will be required to provide a doctor's note or similar proof of absence in order to avoid the 1% penalty.

## **Quizzes**

There will be a quiz at the end of each chapter. The questions in the quizzes will be based on recent material discussed in class and labs for that chapter. These are open-book quizzes, meaning you can use the book, the course slides, and your notes. However, you are not allowed to discuss your quiz answers with other students or engage in practices that would be considered plagiarism, copying, or cheating. Each student is required to complete the quizzes by themselves. The late submission policy is the same as the labs described below. The use of ChatGPT or other LLM software is prohibited.

## **Labs**

The lab work aims to provide practical experience in inspecting, configuring, and managing computer network systems. Lab time is used to get you started on your lab assignments, but sometimes it will not be enough to complete them. You have to submit a report on Blackboard for each lab assignment.

There will be 10 lab assignments over the duration of the semester. The due day for your report will be one week after the assignment has been given out, unless stated otherwise.

Assignments turned in after the due date will receive a 20% late submission penalty per day, including weekends and holidays, with a max of 4 days.

Lab assignments are open-book; you are allowed to use the book, the course slides, your notes, and discuss with the instructor while completing the work. However, you are not allowed to discuss your assignments with other students or engage in practices that would be considered plagiarism, copying, or cheating. Each student is required to complete the lab assignments by themselves. The use of ChatGPT or other LLM software is prohibited.

## **Project**

There is a semester-long project that students need to complete by Monday, April 20<sup>th</sup>. It can be done in groups of 2 or 3 people. If you do not form a team on your own, one will be assigned to you. Exceptions for individual projects or larger teams can be made upon request.

The goal of the project is to teach you the fundamentals of socket programming. You can use any programming language you want, but it has to include sockets. The project description can be found [here](#).

## **Additional Information and Resources**

### **Important Dates**

Drop Deadline - Grade "W": March 27 by 5:00pm

Other important dates: [Winter 2026 Academic Calendar](#)

## **Classroom Protocol**

Treat faculty, staff, your fellow students, and university property with respect. Do not use your phone during class. Do not make distractions and be on time for the class meetings. Any regrading requests must be made within a week of the students receiving their grade.

## **Integrity and Honesty**

All students are expected to adhere to the [academic honesty standards set forth by Grand Valley State University](#). In addition, students in this course are expected to adhere to the [academic honesty guidelines set forth by the College of Computing](#).

## **Course Evaluation**

The end-of-semester course evaluation sites are set up in LIFT and maintained by the Academic Department Coordinator. Course evaluation sites become available to students during the last two weeks of the semester (not exam week), unless specified otherwise.

## **Accessibility and Special Accommodations**

Grand Valley State University strives to provide an inclusive environment across campus that is accessible to all individuals with a diverse range of abilities. As your instructor, it is my objective to facilitate opportunities within all class activities and programs because your success is important to me. If you are encountering difficulties that are interrupting your learning experience, please feel free to make those known to me as soon as possible. If you feel that you need accommodations in this course, you must present a memo to me from Student Accessibility Resources (SAR), indicating the approved accommodations. If the class meets in person, you should schedule a meeting with me during office hours to discuss your accommodations. If your class is online or hybrid, please forward your memo to me in an email and schedule a virtual or phone appointment with me to discuss your accommodations. Accommodations are not retroactive. If you have not already done so, please contact the Student Accessibility Resources office (215 CON) by calling (616) 331-2490 or by email to [access@gvsu.edu](mailto:access@gvsu.edu). You can also visit the SAR website [here](#). Please note that I cannot provide accommodations, until I have received a copy of the SAR issued memo. Furthermore, if you think you will need assistance evacuating this classroom and/or building in an emergency, please make me aware so that the university and I can develop a plan to assist you. All discussions will remain confidential.

## **GVSU Course Policies**

This course is subject to the [GVSU policies](#).

## **Discrimination or Sexual Misconduct**

Grand Valley State University is committed to creating and advancing a campus community where individuals feel empowered to raise concerns, ask for help, and be informed about options before making any decisions. If you become aware of any discrimination or sexual misconduct incident, please report it at the [Title IX office](#).

## **In Case of Emergency**

In Case of Fire: Immediately proceed to the nearest exit during a fire alarm. Do not use elevators.

More information is available on the [University's Emergency website](#).
